## COVER LETTER

Dear Hiring Manager,

I am writing to express my interest in the position at your company. I recently completed a comprehensive Full Stack Coding course, and I am eager to apply my skills and knowledge to a real-world work environment.

One of my most significant accomplishments during the course was building a web application from scratch. This project allowed me to apply my skills in a real-world scenario and gave me an understanding of how different components of a web application work together. Through this project, I learned how to manage and organize my code, create responsive and user-friendly interfaces.

I am passionate about developing clean, maintainable code and enjoy working in a team environment. I believe that effective communication is key to any successful project, and I am always eager to learn new skills and technologies.

I am available for an interview at your convenience and would welcome the opportunity. Thank you for considering my application, and I look forward to hearing from you soon.

Sincerely,

*F. Miller*
